## Surface & Display Options

### Beautifully Finished Prints – No Frame Needed!

First we make a print on your choice of Lustre Paper, Metallic Paper or Fine Art Canvas material. We then over-laminate the image with a soft Satin Lamine or a Glossy Lamine. The resulting product is then mounted on Gatorboard, with or without a foam layer (Softop) in between the print and the board. Finally, we apply a ½" spacer (Mounting Block) to the back of the ThinWrap which allows the image to be hung and appear to float from the wall.

## Finish & Border Options

### Your choice of a Natural or White Finish.

When you choose our Natural Finish, the crisp look of the wood grain appears through the light areas of the image. For a more vibrant look, choose our White Finish, and images will be printed with a white ink underlay.

**Optional 6 Color Printing**  
Standard process printing uses patterns of colored dots of varying sizes to trick the eye into seeing a continuous-tone image using only four ink colors: Cyan, Magenta, Yellow and Black. 6-Color Printing is an HP Indigo process that adds light Cyan and light Magenta inks. This smooths out the dot pattern and increases the depth of color.

**12 Envelope Options**  
Envelopes are included with 4x5½", 5x5", and 5x7" cards. Watercolor, Shine, Natural, or Foil Lined Envelopes and Return Address Imprinting are optional.

**12 Paper Surfaces**  
We offer 12 different paper surfaces, including UV Coated options, so you are sure to find the perfect paper for your project. We want your press printed items to look great but we also want to keep our environment looking great, so these papers include a number of papers which are created using recycled materials, responsible forestry, and wind-power!
