## Email Template:

Hi [Client Name],

Acrylic Blocks turn your favorite holiday photos into something lasting – substantial, dimensional pieces that look great on shelves, desks, or anywhere you want an accent piece that catches attention. The crystal-clear material makes your favorite images appear to float inside, creating this amazing effect that guests at your holiday gatherings will love to pick up and observe.

They're especially popular as holiday gifts because they feel special – something people proudly display rather than store away.

Want to see which of your winter session photos would work well as Acrylic Blocks? They have this unique appeal that makes people stop and really appreciate your family photos during all those holiday visits.

Cheers,
